

TESTIMONIALS

CONTACT US

“

Liftians system is easily expandable and highly flexible. You can scale up and down on-demand. The efficiency is off the charts; it's not often you see a goods-to-person system give 5-6x efficiency of a manual picking system right off the bat.

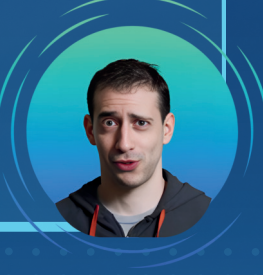

Shawn McGhee
CEO Hollywood Feed

“

With Liftians, pick capacity surged 400%, from 100-200 to 600-800 orders per shift per worker. The system's dynamic aislesways increased storage density by 20%, which translated to a 25% revenue boost from this feature alone.

TURN YOUR WAREHOUSE INTO A POWERHOUSE

With Automation,
Innovation & Customization

Smart Automation, Tailored for Maximum Impact

THE LIFTIANS ADVANTAGE

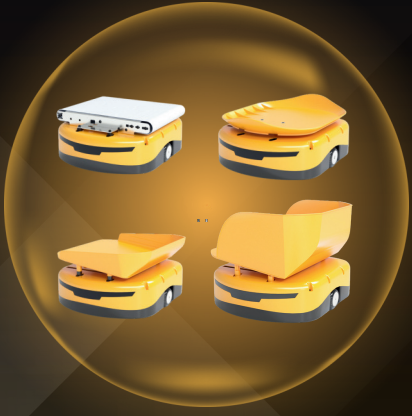

Picking

Material Handling

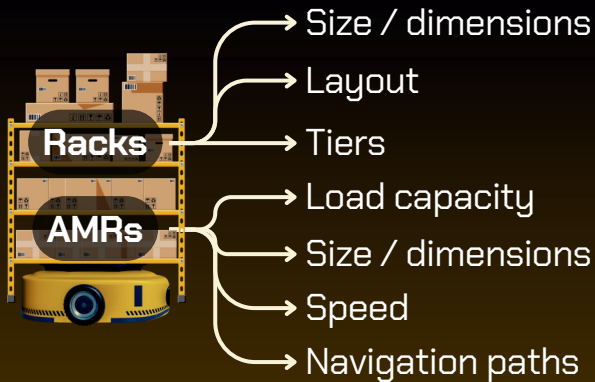

Sorting

Custom Solutions for Maximum Efficiency

Hardware Customization

Software & Workflow Customization

- ✓ Custom pick sequences and workflow prioritization
- ✓ Real-time dashboard and reporting for KPIs that matter
- ✓ Custom algorithms to optimize picking routes and inventory
- ✓ Multi-zone & multi-level picking adapted to complex layouts
- ✓ SKU-based storage optimization (hi-demand vs. slow-moving)

Major Warehousing Challenges SOLVED

-  Labor Shortages
-  Slow Fulfillment
-  Space Inefficiency
-  Scalability Issues

Based in the U.S.A.

Our solutions are designed, engineered, and tailored directly in-house from our Silicon Valley headquarters.

Data Security

Our in-house servers and databases ensure zero reliance on third-party cloud services, eliminating data leak risks.

METRICS THAT MATTER
